Breach of Stock Exchange Rules

On 7 March 2014 the NASDAQ OMX Stockholm’s Disciplinary Committee decided that the Company is to be delisted from First North Premier due to the failure of the Company to meet certain disclosure requirements under the stock exchange rules. The decision of the Disciplinary Committee was made following the investigation of events that had taken place in the Company during 2012 and 2013.

In accordance with the decision of the NASDAQ OMX Stockholm’s Disciplinary Committee the Company was delisted and the Company’s shares were removed from trading on NASDAQ OMX Nordic First North on 9 May 2014.

The reason for the shortcomings that have served as the basis for the decision of the Disciplinary Committee and the delisting have been caused by the long period of inaction and lack of clear and common corporate strategy that the Company had gone through in 2012 and 2013. Disputes between the previous larger shareholders and creditors have been the main reasons for the Company’s inability to develop its core business and have distracted the previous management from fully complying with the stock exchange disclosure requirements.

It is Company’s objective to seek approval for the Company’s shares to be traded publicly as soon as possible. Therefore, the Board of
Directors has already initiated activities for identifying opportunities for continuing the trading of the Company's shares at an attractive public exchange.
